SPECIAL TOUR OF ISKANDAR JALIL'S EXHIBITION AT NATIONAL GALLERY FOR SEACS MEMBERS

SEACS members are invited to a special docent led tour of Iskandar Jalil's new exhibition at National Gallery titled *Kembara Tanah Liat* (Clay Travels) that just opened this month.

It is the first major survey of the Cultural Medallion recipient's work drawing close to 200 works from the 1960's to the present-day. It highlights his deep connection with clay and belief that the material embodies the local identity and culture of the land.

The exhibition traces the journeys and diverse cultural sources which informs Iskandar Jalil's practice.

Limited to first 20 on a first come basis. If space permits, members may bring along a guest.

Please RSVP by 20th September.

*This specially arranged tour will be led by SEACS Council Member **Vidya Schalk** who is also a docent at the National Gallery and currently guiding this exhibition. In addition, Vidya is also a docent at ACM, NMS and STPI. She has several years of experience guiding visitors through various exhibitions and also gives training lectures and public talks on ceramics related topics.*
